

# Paula Siqueira - Kiss Me

Tom: C  
Intro: C

If you only knew what's inside my head  
Sometimes I think you do, hope you won't forget

Talk a little softer, come a little closer  
Pretend you're just trying to say something  
You don't have to look into my eyes  
But you can let your hands touch mine

If I had the guts I'd say ?kiss me?  
And we would leave all the awkwardness behind  
I think your lips are way too distant  
Oh please tell me you want them close to mine  
?Cause I am dying inside to close my eyes and feel your arms  
Holding me tight

I guess you've realized  
So don't let time run by

Smile at me and let the conversation get quieter  
Leave your shoulder free so I can lay my head on it

Play with my fingers while you find out just what to say  
You can say anything, but if you don't, that's ok

If I had the guts I'd say ?kiss me?  
And we would leave all the awkwardness behind  
I think your lips are way too distant

Oh please tell me you want them close to mine  
?Cause I am dying inside to close my eyes and feel your arms  
Holding me tight

I guess you've realized  
So don't let time run

Ooh baby  
My hands have touched your arms like a dozen times  
Ooh baby

Everyone can see what's behind these eyes  
You're getting late, just give a hint  
Don't make me wait, just step right in

If I had the guts I'd say ?kiss me?  
And we would leave all the awkwardness behind

I think your lips are way too distant  
Oh please tell me you want them close to mine  
?Cause I am dying inside to close my eyes and feel your arms  
Holding me tight

I guess you've realized  
So don't let time run by  
(Don't let time run by )  
Don't let time run by  
(Don't let time run by )  
Don't let time run by  
(Don't let time run)  
Don't let time run by

## Acordes
