

# Pearl Jam - Alright

tom:

Intro: **E** **G**  
 [Primeira Parte]

You can't hide the **A** lies  
 In the rings of a **E** tree  
 If your heart still beats **A** free  
 Keep it for yourself **E**

When you want to **A** run  
 And leave some part **E** unrevealed  
 Like the flight of the **A** bee  
 Keep it for yourself **E**

[Refrão]

It's **G** alright, to be alone

To listen for a **A** heartbeat,  
 It's **E** your own

It's **G** alright, to quiet up

To disappear in thin **A** air,

It's **E** your own

[Primeira Parte]

Should your **E** living truth die **D**  
**E**

Could be an acid trip **D**  
 Leave the eucharist whole **E**  
 Keep it for yourself

If you tire of the **E** **D** game  
 Hit the road towards the **E** clouds  
 Find the groove in the **D** sound  
 Keep it for yourself **E**

[Refrão]

It's **G** alright, to say no  
 Be a disappointment in your **A** **E** own home  
 It's **G** alright, to turn it off  
 Ignore the rules of the **A** state,  
 It's **E** your own

It's **G** alright, to shut it down

Disappear in thin **A** air,

It's **E** your home

It's **G** alright, to be alone

To listen for a **A** heartbeat,

It's **E** your own

[Final]

You can't hide your **D** eyes

## Acordes
