

Pearl Jam - Deep

Tom: **A** same as before

Mike-standard

Solos are from the Ten songbook

I pulled Mike's chorus part from the Brimli '93 video

It is a strange harmony part, and as best as I can tell, is what he's playing

live. However, I'm not sure so if you have this video or just

another idea on

this part, feel free to email me or post on the message board.
