

# Pearl Jam - Swallowed Whole

Tom: G

Intro D C

D  
I can feel the dawn  
I can feel the Earth  
I can feel the living all around  
Round, round, round  
All around, round, round, round

D  
I could choose a path  
I could choose the word  
I can start the healing  
Bring it now, now, now, now  
Bring it now, now, now, now

Am C Em  
Whispered songs inside the wind  
Breathing in forgiveness  
Like vibrations with no end  
Hear the planet humming  
What is clear far from the noise  
Get swallowed whole

D  
I could feel the sun  
I can see the sound  
I could set myself right here and drown,  
Drown, drown, drown  
Drown, drown, drown, drown

D  
I can feel the rush  
I could clear the clouds  
I could set the needle, spin it loud  
Loud, loud, loud  
Loud, loud, loud, loud

D  
I can hear the crash  
I can feel the pound  
I can feel the current pulling down

Down, down, down,  
Down, down, down, down

Am C Em  
Whispered songs inside the wind  
Breathing in forgiveness  
Like vibrations with no end  
Hear the planet humming  
What is clear far from the noise  
Get swallowed whole

Am Em D C  
With no quiet to be found  
Spirit lifted off the ground  
An what lies beyond the grave  
Might be welcome change  
Time will come, come what may  
With now rest in peace

Until that day

D C (2x)

D  
I could choose a path  
I could choose the word  
I can start the healing, bring it now  
Now, now, now  
Now, now, now, now

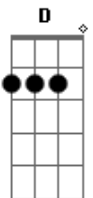

D  
I could be the sun  
I can be the sound  
I could set myself right here and drown  
Drown, drown, drown  
Drown, drown, drown, drown

Breathing in forgiveness
