

# Pearl Jam - The End

Tom: Gb

What were all those dream we shared  
 Those many year ago  
 What were all those plans we made  
 Now left beside the road  
 Behind us in the road

More than friends I always pledged  
 Cause friends they come and go  
 People change as does everything  
 I wanted to grow old  
 Just want to grow old

slide on next to me  
 I'm just a human being  
 I will take the blame

But just the same

This is not me  
 You see  
 Believe

I'm better then this  
 Don't leave me so cold  
 Or buried beneath the stones  
 I just want to old on

And know I'm worth your love  
 Enough  
 I don't think

There's such a thing

It's my fault, Now I been caught  
 A sickness in my bones  
 How it pains to leave you here  
 With the kids on your own  
 Just don't let me go

Help me see myself  
 'Cause I can no longer tell  
 Looking out from the inside of  
 The bottom of a well  
 It's hell  
 I yell

But no one hears before  
 I disappear

Whisper in my ear  
 Give me something to echo  
 In my unknown futures ear

My dear  
 The End  
 Comes near  
 I'm here  
 But not much longer
