

# Pete Murray - Let You Go

Tom: **Db**  
Intro: **C#,E**

Versel:

It's been four long years gone by now

Can see the shape I'm in

Rest assured I'm on my way

How'd you get me to the place I been

Only you know it's always faith

Now all my faith's in a spin

As I'm almost on my way

Now please take me right in

Bridge:

Because every word has been a moment in time

You're like a poem that's caught in my head

I curse the day when I'll see that lonely smile

"Let you go")  
But it's better than playin' pretend

And I know, yes I know

That I have to

Chorus:

Let you go, let you go,

Let you go, just like I want you to stay

Let you go, let you go

Let you go, just like I want you to stay

Verse2:

It's the time now, it's all there

It's way out, that's been wearin' me thin

I stop right now and say bye to all this

And take it right on the chin

Only you know that when your faith's out

A new faith will begin

As the darkness slowly fades now

Come let the light in

Repeat Bridge and Chorus

Guitar solo (play same as Intro x4)

Repeat Bridge and Chorus

## Acordes
