

Peter Frampton - Feel Like I Do Intro

Tom: C

I wanted to find out the beginning to this song one day and looked for it all over, couldnt find it so i got off my butt and figured it out myself, a first for me. I took this off the live version of the song if it differs from the studio version, sorry.

It then goes into many different versions, going up by a third, all sorts of stuff. Have fun with it.
