

Phantom Planet - Hey Now Girl

Tom: A

Intro: Chords:

A, E, F#, E, x2

A, E, D, A x2

Well let me tell you I have seen

a monster age of seventeen

Who'll let you in to kick you out

and knows what love is "all about"

Hey now girl I see you walking by

And long ago you used to stop and talk now you just wink your eye

and I'm surprised you look all grown up

A champagne glass next to a paper cup

I stopped you just to say it

Hey now girl

Her tongue is black haven't you heard

her mutter those three dirty words

For all those foolish boys to hear

like a siren bringing ships so near

Hey now girl I see you walking by

And I remember how you used to smile or how hard you used to try

It's in your eyes and I'm in a trance

A winter chill next to a spring romance

I stopped you just to say it

Hey now girl

Hey now girl

Repeat intro chords:

A, E, F#, E, x2

A, E, D, A x2

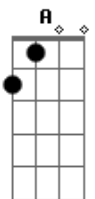

Hey now girl

Hey now girl

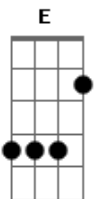

Who let you out into this world?

Hey now girl
