

# Phantom Planet - Lonely Day

Tom: A

I could tell from the minute I woke up  
 It was going to be a lonely lonely lonely lonely day.  
 Rise and shine rub the sleep out of my eyes  
 And try to tell myself I can't go back to bed  
 It's gonna be a lonely lonely lonely lonely day.  
 Even though the sun is shining down on me and I  
 should feel about as happy as can be  
 I just got here and I already want to leave  
 It's gonna be a lonely lonely lonely lonely day  
 It's gonna be a lonely lonely lonely lonely day  
 It's gonna be a lonely lonely lonely lonely day  
 Everybody knows that something's wrong  
 But nobody knows what's going on  
 We all sing the same old song  
 When you want it all to go away  
 It's shaping up to be a lonely day  
 A D A D

I could tell from the minute I woke up  
 It was going to be a lonely lonely lonely lonely day.  
 It's gonna be a lonely lonely lonely lonely day  
 Everybody knows that something's wrong  
 But nobody knows what's going on  
 We all sing the same old song  
 When you want it all to go away  
 It's shaping up to be a lonely day  
 I could tell from the minute I woke up  
 It was going to be a lonely lonely lonely lonely day.  
 It's gonna be a lonely lonely lonely lonely lonely....  
 Everybody knows that something's wrong  
 But nobody knows what's going on  
 Everybody knows that something's wrong  
 But nobody knows what's going on
