

Phill Whickham - Sun & Moon

Tom: C
 Intro: C F C Am G F

If you are the sun
 Then i wanna be the moon
 I wanna reflect the light that shines from you
 And if this is war
 Then i'm gonna draw my sword
 This time i know what i am fighting for

God i wanna let you know
 I want everything you are
 I'm waiting for the morning light to show
 A fire in the dark

Shine your light, i wanna feel you now
 God i need a miracle
 Take my heart, make it glow
 Shine your light from the inside out
 I wanna be more like you
 If you are the sun, i wanna be the moon
 i wanna be the moon

If love is a choice
 Then i need you to hear my voice
 I'm the one knocking on your door making all this noise
 Whatever it takes
 I give it all away
 I wanna show my love in a thousand ways

God i wanna let you know
 I love everything you are
 I'm waiting for the morning light to show
 A fire in the dark

Shine your light, i wanna feel you now
 God i need a miracle
 Take my heart, make it glow
 Shine your light from the inside out
 I wanna be more like you
 If you are the sun, i wanna be the moon

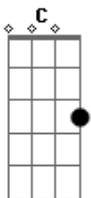

I can't live a single day without you
 I don't even want to try
 And i won't take another step without your light
 I need your light

Shine i wanna feel you now
 God i need a miracle
 Take my heart, make it glow
 Shine your light from the inside out
 I wanna be more like you
 If you are the sun, i wanna be the moon
