

# Phillip Phillips - Man On The Moon

Tom: Gb

(com acordes na forma de E )  
 Capotraste na 2ª casa  
 Intro: 3x:

I watched the world from the side of the moon  
 Looking at the stars, looking back to you  
 Just to see if you were still alive  
 Looking at the sun with the fire in your eyes  
 It's hard to know where I stand  
 Even the man on the moon couldn't tell me where to land  
 But I wanted to fly in the sea  
 With no gravity to pull me down (2x)

Gbm A E2  
 Hold on it won't take long  
 You can find yourself if you decide to finally start  
 Gbm A E2  
 Don't run to me when you fall  
 Cause the steps get bigger so go ahead and walk them off  
 Gbm A C#sus4 Dm7  
 And you know how I feel  
 Gbm A C#sus4 E2 (Em )  
 So don't let your life start to slowly waste away  
 Intro: Huh ohh No no

Verso 2x:

So tell me this one thing now listen to me close  
 You steal from me but you call it your own  
 You liar you thief go make your stand  
 on your own two feet  
 So oh now oh now listen what your friends say

Go now go now, go and do it that way  
 I'm the one you want to believe  
 But in your heart you can't see
