

Pierce The Veil - Floral & Fading

Tom: Db

(com acordes na forma de C)

Capostrate na 1ª casa

Intro:

C

[Verse 1]

Rage in us, your thirst I'm taking,
 Pull the plug, I'll keep on shaking.
 And thrustin' about your apartment,
 Drowned on the blankets floral and fading.

Painful lust, two aching guts,
 They tear through each other in the mirror.
 This happy vacation, there's no motivation,
 So hold me up.

[Chorus]

You say you want to chase the moon like fire,
 Well, together we can fake our own deaths here,
 Just wanna be alone and watch as you all just disappear.
 Oh, oh, oh

[Verse 2]

Darker now, kicked out and sleeping in your car,
 You roll the window down, enough to dream and make-believe.
 Our lights knocked out, turned upside down,

And I'm just a stupid motherfucker, can't figure it out.

I want devil horns, I wanna breathe in your rush,

I wanna leap when you want me to fly.

But darlin', I don't mean to beg,

But these thorns on the stem are nearly tearing up my skin.

[Chorus]

So now you wanna chase the moon like fire,
 Well, together we can fake our own deaths here,
 Just wanna be alone and watch as you all just disappear.

G

[Hook]

Close your eyes,
 Picture you and I,
 Selling daylight for gasoline.

C

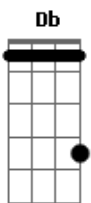

[Bridge]

So now we're gonna chase the moon like fire,
 Yeah, together we can fake our own deaths here,
 Just wanna be alone and watch as you all just disappear.

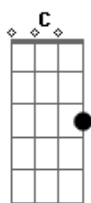

[Outro]

Whoa-oh-oh,
 Just wanna be alone and watch...
 Why can't we be alone and watch?
