

Pierce The Veil - Shared Trauma

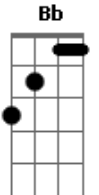

tom:
 F
 Am I still your excuse to go get high?
 Flatlined, coma induced in record time
 If I go down in flames, then what's the point of even trying?
 'Cause we share trauma, and as we share trauma
 It takes it to break it, woah
 We share trauma and nothing's ever gonna erase it
 So face it
 To you (to you), i'm drawn across this universe
 For you(for you), i'm tempted from my dreams and curse
 In a state of emergency, and I'm afraid it's getting worse
 'Cause we share trauma, and as we share trauma
 It takes it to break it, woah
 We share trauma and nothing's ever gonna erase it

So face it
 (F Dm Bb F)
 I'm running on empty
 Will you armor me for battle? I'm afraid
 That all my veins and never-ending tragedies
 Will bleed my heart empty and scare your love away
 'Cause we share trauma, and as we share trauma
 It takes it to break it, woah
 We share trauma and nothing's ever gonna erase it
 So face it
 Oh
 (Bb Dm C)
 We share this
 We share this
 We share this
 We share this
 We share this
