

# Pierre Braga - Outras Moradas

Tom: E

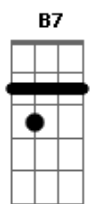

À noite no céu são estrelas que brilham  
 Meus olhos que brilham também  
 Descubrem no céu mil sinais que cintilam  
 Sem ver todas elas porém  
 São muitas moradas no espaço infinito  
 São lares distantes daqui  
 São sóis de energia cercados de vida

Em mundos a evoluir  
 São tantas moradas, são outras pousadas  
 De almas irmãs como eu  
 São educandários interplanetários  
 Moradas do reino de Deus  
 São tantas moradas, são outras pousadas  
 De almas irmãs como eu  
 São educandários interplanetários  
 Moradas do reino de Deus
