

# Pinegrove - Old Friends

Tom: E

E  
Walking outside labyrinthian over  
Cracks along under the trees

A  
I know this town grounded in a compass  
Cardinal landed in the dogwood

E  
I keep going over it and over and over  
My steps iterate my shame

A  
How come every outcome's such a comedown  
Lately afternoon with the shades drawn down

E  
I kept saying i just wanted to see you  
Saying what's wrong with that

A  
Needles shaking out lines in a compass  
Every outcome's such a comedown

E A  
I knew it when i saw it

Dbm  
So i did just what i wanted

A  
So i go through with this

Dbm A  
I knew happiness when i saw it

E  
Saw your boyfriend at the port authority  
Sorta fucked up place

A  
Well so i adverted my stride on a quick one  
Just coming back from going over your place huh

E  
I feel like we could forget about it  
I feel like a mellow out

A  
I don't feel undone in a big way  
There's nothing really bad to be upset about

E

So when i thought i was getting better  
I woke up on the ground

A  
And appointment or disappointment  
Step back going on the come down

E A  
As if i needed a reminder

Dbm  
Oh i do only what i wanna

A  
So i go through with this

Dbm A  
I knew happiness when i saw it

E  
Walking out in the nighttime springtime  
Needling my way home

A  
I saw leah on the bus a few months ago  
I saw some old friends at her funeral

E  
My steps keep splitting my grief through  
These solipsistic moods

A  
I should call my parents when i think of them  
Should tell my friends when i love them

E  
Maybe i should have gone out a bit more  
When you guys are still in town

A  
I got too caught up in my own shit  
How every outcome's such a comedown

E A  
And i knew it when i saw it

Dbm  
Oh i did just what i wanted

A  
So i go through with this

Dbm A  
I knew happiness when i saw it?

E
