

# Pink Floyd - Take It Back

Tom: G

Her love rains down on me as easy as the breeze

I listen to her breathing it sounds like the waves on the sea

I was thinking all about her, burning with rage and desire

We were spinning into darkness; & the earth was on fire

She could take it back, she might take it back some day

So I spy on her, I have lied to her, I make promises I cannot keep

Then I hear her laughter rising, rising from the deep

And I make her prove her love for me, I take all that I can take

And I push her to the limit to see if she will break

She might take it back, she could take it back some day

Now I had seen the warnings, screaming from all sides

It's easy to ignore them God knows I've tried

All of this temptation, you know it turned my faith to lies

Until I couldn't see the danger or hear the rising tide

She Could take it back, she will take it back some day

She Could take it back, she will take it back some day

She will take it back; She will take it back some day
