Pink Floyd - Take It Back

Tom: G

Her love rains down on me as easy as the breeze

I listen to her breathing it sounds like the waves on the sea
     C
I was thinking all about her, burning with rage and desire
        G
We were spinning into darkness; & the earth was on fire
      F   C   G
She could take it back, she might take it back some day
G
So I spy on her, I have lied to her, I make promises I cannot keep

Then I hear her laughter rising, rising from the deep
      C
And I make her prove her love for me, I take all that I can take

          G
And I push her to the limit to see if she will break
          F   C   G
She might take it back, she could take it back some day
G
Now I had seen the warnings, screaming from all sides

It's easy to ignore them God knows I've tried
      C
All of this temptation, you know it turned my faith to lies
G
Until I couldn't see the danger or hear the rising tide
          F   C   G
She Could take it back, she will take it back some day
          F   C   G
She Could take it back, she will take it back some day
          F   C   G
She will take it back; She will take it back some day
