

# Pixie Lott - Boys And Girls

Tom: Gb  
Intro: 2x: Db

I'm looking in the mirror and

I think I'm liking what I see

Big big lights shining

bright like Im on the T.V

My heart pumps as the bass drum

thumps you gotta move when the boy jumps

Somethings going on and I

think its going on right now

Refrão:

All the boys and the girls

they got it going on

When the beat kicks in

the feeling in your bones

When the bass impacts

and the needle drops

When you can't turn back

and you just can't stop

All the boys and the girls

(no you just can't stop)

All the boys and the girls

(no you just can't stop)

All the boys and the girls

Interludio: C#-

Verso 2:

I can see the silhouette  
standing up against the wall

It sure feels good feels good  
yeah were gonna lose control

Turn it on make it strong a  
good beat never hurt no-one

Kicking up the dust and were  
making every move we know ye-e-ah

(Refrão)

Woohoo oooh, baby dont stop.

Woohoo oooh, keep the vibe hot.
