

# Pixie Lott - Cant Make This Over

Tom: **B**

**B** **E** **Dbm** **Gb** **B**  
HMMMM hhhhhmmmm hmmmm hmmm

I only miss you when you call **E**  
**Gb** **E** **B**  
So please don't pick up the phone again  
In the confusion of it all **E**  
**Gb**  
Give me time  
While my mind's unravelling **E**

I just can't escape this feeling **Gb**  
**Abm**  
But it's taking over me **B**  
All over me **E** **Gb**  
I know now I can't try to hide it **Dbm** **Db**  
It's clear to me that I can't fight it  
**B** **E**  
You wanna take it back to where it was **Dbm**  
But I can't make this over **Gb**  
I can't make this over **B** **Dbm**  
You want another chance to try again  
But I can't make this over **Abm**

I can't make this over  
**B**  
Now

Don't say I don't miss the way we were  
I thought nothing could tear us apart  
Why do you have to sabotage our love  
And leave me with a broken heart?

You think, that I won't forgive you  
It's far beyond a breakup  
Kiss and make up

I know now that it's not about you  
I know that I can't live without you

You wanna take it back to where it was  
But I can't make this over  
I can't make this over  
You want another chance to try again  
But I can't make this over  
I can't make this over

**B** **E**  
And now I'll follow my heart  
**Abm** **Gb**  
And now you're out of my life  
**E**  
And now?

You wanna take it back to where it was  
But I can't make this over  
I can't make this over  
You want another chance to try again  
But I can't make this over  
I can't make this over [x2]

Now?
