

# Placebo - For What It's Worth

Tom: Gb

Eb Intro:

( Gb Em )  
 The end of the century  
 I said my goodbyes  
 For what it's worth  
 I always aimed to please  
 But I nearly died

For what it's worth  
 Come on lay with me  
 'Cause I'm on fire  
 For what it's worth  
 I tear the sun in three  
 To light up your eyes

Gb  
 For what it's worth  
 For what it's worth

Em  
 For what it's worth  
 For what it's worth

( Gb Em )  
 Broke up the family  
 Everybody cried

Afinação: Eb Ab Db Gb Bb

For what it's worth  
 I have a slow disease  
 That sucked me dry

For what it's worth  
 Come on walk with me  
 Into the rising tide  
 For what it's worth  
 Filled a cavity  
 Your god shaped hole tonight

Gb  
 For what it's worth  
 For what it's worth

Em  
 For what it's worth  
 For what it's worth

( Gb Em )  
 No one cares when you're out on the street  
 Picking up the pieces to make ends meet  
 No one cares when you're down in the gutter  
 Got no friends, got no lover

Gb

Em
