

# Placebo - I Feel You (Depeche Mode Cover)

Tom: **Db**

Tab : CAT

Chorus:

"I feel you, your precious soul..."

"You take me there, you take me..."

"I feel you, your rising sun..."

"You take me to and lead me through babylon..."

Breakdown:

(Played on distorted baritone guitar, with sampled flangellation/panning.)

"This is the morning of our love..."

Parts at end or after singing is finished is played over loop. These sound

"This is the dawning of our love..."

close to being harmonics than I like, but after endless tooling with my instrument, I decided to use the sounds made by actual fret fingering, as finding the harmonic notes was getting me nowhere.

## Acordes
