

# Placebo - I Know

Tom: **Db**

[Os mesmos acordes durante toda a música]

**Ab G Cm**

I know You love the song but not the singer  
 I know You've got me wrapped around your finger  
 I know You want the sin without the sinner  
 I know, I know

I know The past will catch you up as you run faster  
 I know The last in line is always called a bastard  
 I know The past will catch you up as you run faster

I know, I know

I know You cut me loose in contradiction  
 I know I'm all wrapped up in sweet attrition  
 I know It's asking for your benediction  
 I know, I know

I know The past will catch you up as you run faster  
 I know The last in line is always called a bastard  
 I know The past will catch you up as you run faster  
 I know, I know

I know The past will catch you up as you run faster  
 I know The last in line is always called a bastard  
 I know The past will catch you up as you run faster  
 I know, I know
