

# Plain White T's - Shine

Tom: C

-Plain White T's-  
-Shine-

Standard Tuning

Stumming Pattern is Pretty Easy to Figure Out.

Intro: /Verse (Guitar 1)

Verse (Guitar 2)

Pre-Chorus

Chorus

Bridge

[Verse]

You know it tears me up inside  
To see the feelings that you hide  
Hide inside that empty bottle  
I wish you saw how great you were  
I wish you saw what life was worth  
You wouldn't have to hide your problems

[Pre-Chorus]

And I don't care what you might think  
I think you've had too much to drink  
Can't even talk when you're this way

[Chorus]

Runaway, runaway  
But that won't make it any better  
Runaway, runaway  
And make tomorrow  
Harder to live than today

[Verse]

There's so much out there you could miss  
There's so much life out there to live  
If you would just believe in yourself  
You know you're better than all of this  
You know you've got so much to give  
But you're so afraid to give of yourself

[Pre-Chorus]

[Chorus]

[Bridge]

There's a bright light shining inside you  
It shines out through your eyes  
Don't drown it away, don't be afraid  
Don't hide  
Let it shine

[Verse]

You say you're looking for happiness  
But when it comes, you runaway from it  
You tell yourself you don't deserve it  
There's not much more that I can do  
Now the rest is up to you  
Until you love yourself, you'll never change

[Chorus]

(You'll keep on running)  
(Until you deal with today)

[chorus]

## Acordes
