

# Portugal The Man - So Young

Tom: G

So young, just begun  
 Don't need to live to know  
 What I've become  
 When ya wake up  
 Still in your make-up  
 You'll make it home just  
 Fine without breaking down  
 Man that's so young  
 That's so young  
 Stay calm, we'll all just get along  
 Sit around, pretending like nothing's wrong  
 So long, love letter  
 But you and I are gonna live forever  
 I don't need to make amends  
 But I'm done going undercover  
 I just want to find a friend  
 I don't need another lover  
 One day the world may end  
 But there's still plenty to discover  
 Till then I'll just pretend  
 I don't need another lover  
 So young, loaded gun  
 Oblivious to what the trigger does  
 Will ya wake up  
 Never gonna make up  
 Got ammunition on a mission  
 We're gonna shoot you down  
 Man that's so young  
 That's so young  
 Knocked out with the Midas touch  
 A champion wearing golden gloves  
 Got you punch drunk, seeing stars  
 Little birdies singing "why'd ya fall so hard?"

I don't need to make amends  
 But I'm done going undercover  
 I just want to find a friend  
 I don't need another lover  
 One day the world may end  
 But there's still plenty to discover  
 Till then I'll just pretend  
 I don't need another lover  
 My light burning bright  
 Everlong till the thrill is gone  
 Love's my battle cry  
 It's never wrong  
 How I stay so strong  
 I'll fight all my life  
 I'm all like I can't go on  
 When I can't go on  
 We're gonna live forever  
 We're gonna live forever  
 I don't need to make amends  
 But I'm done going undercover  
 I just want to find a friend  
 I don't need another lover  
 One day the world may end  
 But there's still plenty to discover  
 Till then I'll just pretend  
 I don't need another lover  
 Ooh... it's troubling  
 When the belly of the beast starts rumbling  
 Ooh... it's getting too hot  
 Like the summer in the city that we're living in  
 Ooh... it's troubling  
 When the belly of the beast starts rumbling  
 Ooh... it's getting too hot  
 Like the summer in the city that we're living in
