tom:

Intro: C F G C  
G Em F

[Primeira Parte]

Two A.M  
They ran out of lemonade  
So I shot that vodka straight, anyway  
She came in  
Missin' bottle off the shelf  
I can't drink this by myself, sit with me, babe  
Then I started laughin'  
Like it was funny  
But it really ain't funny, uh

[Refrão]

Take me home, don't shut me out  
It's easier to leave me down here on the ground  
Take me home, baby, I'm fucked up now  
I know it's easier to leave me down here on the ground

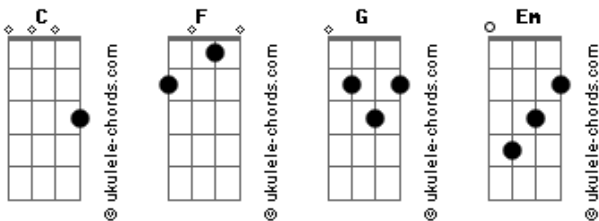

'Cause enough is enough  
I can't stand up

I can't stand, can't stand

'Caus? enough is enough

[Segunda Parte]

## Acordes

Long nights in the city of sin  
Th?y said I pick fights that I won't ever win  
I got a bad bitch that'll bring all her friends  
But when I'm with you it's like I'm livin' again  
And baby, I'm shit-faced sittin' on the sidewalk  
Ain't nobody listenin' when I talk  
I fall down and laugh

But it really ain't funny, uh

[Refrão]
