

# Powerwolf - We Drink Your Blood

Tom: E

Our mother God we hold the sword in holy times  
 We are the war we never see the light  
 The order call, we all will take more human wine  
 And we toast to the night  
 We fold our hands, we keep the Bible in our minds  
 Our father God we are the hordes of Cain  
 And though you run we will take you and we find  
 Any type, any vein

We drink your blood when the midnight sky is red  
 We drink your blood And we call the sanguine saints  
 We drink your blood when the midnight sky is red  
 We drink your blood And we open your veins

Our father God, we are the demons of the wild  
 When all we pray, stand the fight as one  
 We tame to storm, we are the martyrs in the light  
 Take your soul when you run  
 We are the dark we are the saints of blood at night

We hear the call, when then moon shines red  
 We grab your body in the morning all we are  
 Satisfied when you are dead

We drink your blood when the midnight sky is red  
 We drink your blood and we call the sanguine saints  
 We drink your blood when the midnight sky is red  
 We drink your blood And we open your veins

( E Ebm Abm )

We drink, we drink, we drink your blood  
 Kyrie Eleison  
 We drink, we drink, we drink your blood  
 Kyrie Eleison

We drink your blood when the midnight sky is red  
 We drink your blood and we call the sanguine saints  
 We drink your blood when the midnight sky is red  
 We drink your blood And we open your veins  
 We drink your blood
