Tom: G

Sick, sick, sick  
Don't resist

Afinação: C A D G B E (Drop C )

Intro:

Verso #1 (o verso é tocado no mesmo ritmo que é cantado):

Young, dumb, don't see a problem  
Bloodshot, stare like a hoodlum  
Simple as this, I'm in love with the risk  
I know what I've done but tell me what did I miss?

Verso #3 (apenas bateria e teclados):  
A total eclipse in the teeth of the risk  
The tongue is a twist, perpetual bliss  
Forever midnight, forever midnight  
Forever midnight, forever

So please don't save something  
Waste not, save nothing  
Lose the halo, don't need to resist  
A lick of the lips and a grip on your hips

First thing we succumb to  
Shout, erase and undo  
Days are unreleased, if there's no release  
Please just let me do whatever fits you

Baby-Baby come out

Pout your bottom lip while cracking the whip  
You know what we want, it's candy to cum to
