

R5 - Ain't No Way Were Goin Home

Tom: Gb

(com acordes na forma de Capostrate na 6ª casa C)

I was blown away
 busy disappearing till i saw your face
 in the stratosphere and now I can't escape
 The force field that we're in got me
 light years away
 so outer space
 without a trace
 But baby we're gone-
 baby we're gone come on
 aint no way we're goin home
 let's stay on the run forever
 lets go nowhere that we know
 get strange with the stars together
 we can do what you wanna do
 but what you wanna do

baby we we can do better
 ain't no way we're goin' home
 yeah, lets go
 yeah, lets go

I hope you guys get the point now!

Burning air, you lit a fire feels like millionaires
 black top to tires lets get outta here
 and you make it brighter when we cant see the road
 where does this go?
 God only know

I'm the light you're the bomb put together
 I'm the pop you're the rocks put together
 I'm the fight your the song put together
 yeah, together, ye-ah
 Lightyears away...
 so outer space...
 without a trace...
 baby we're gone
 baby we're gone come on
