Sleeping peacefully

The girl I used to be

Until I fell so deep

A neverending tragedy

You haunt me in my dreams

But it's all I want to see

You're the oxygen I need

Yet I can't breathe

Circles, in circles, I go around

Looking for something that can't be found

Circles, in circles, without a sound

My words can't be heard when the fear surrounds

My heart

What is happening to me?

Tell me, what does all this mean

So far away from reality

"What a lovely place to be."

I tell myself, 'cause every second like this feels like hell

Are these words that you gave me real?

I can't tell

It doesn't matter, 'cause nothing matters

I'll see you again in a dream so far away

Circles, in circles, I go around

Looking for a reason that can't be found

Circles, in circles, without a sound

My tears can't be heard when they hit the ground

So come, take my hand and

Come, make me feel what it's like

When love comes alive

And one day, I wish that

I won't keep hiding the truth

But I'm just a fool

Oh, I'm such a fool

Bm

Repeating, repeating

I'm dying, I'm breathing

Repeating, repeating

I'm crying, I'm healing

Bm

Repeating, repeating

I'm dying, I'm breathing

Repeating, repeating

I'm crying, I'm healing

Repeating, repeating

I'm dying, I'm breathing

Repeating, repeating

I'm crying, I'm healing
