

Radio Front - Heart Burn

Tom: C

Don't know how
It happened, so fast
Hold me now
I feel I'll crumble to you
Spread your arms
All around me
And it makes me strong
Make my world turn
Light my heart and burn
Fill me with your love
Make my world turn
Light my heart and burn
Fill me with your love tonight

If you came to fix me
To you, well I'm just crazy
I just believe because I feel it
You've brought me a thousand smiles
Just dance with me
Just dance with me
Just dance with me now
Because you
Make my world turn
You light my heart and burn
When fill me with your love
Make my world turn
Light and burn
Fill me with your love
Tonight
