

Rafa - Take Things Slow

tom:
 Capostraste na 5ª casa

Babe I think it's time to take things slow
 The way that you move has got me on the floor
 Babe I think it's time to take things slow
 The way that you move has got me on the floor
 It wasn't long ago
 When I was with someone
 That fucked me over and over
 Just like no one before

She wasn't very kind

Neither was my type

Made me question myself

Even about my life

She said she loves me now and forever

But didn't show me when we were together

Now she keeps talking about things I never did

Things I never said

Things I wish I did

I used to be so cool on the street (yeah)

I used to be so fool on the street (yeah)

Babe I think it's time to take things slow
 The way that you move has got me on the floor

Babe I think it's time to take things slow

The way that you move has got me on the floor

Babe, ba-ba-babe, ba-ba-babe, babe ooh

Babe, ba-ba-babe, ba-ba-babe, babe ooh

Babe I think it's time to take things slow

The way that you move has got me on the floor

Babe I think it's time to take things slow

The way that you move has got me on the floor

The way that you move has got me on the floor
