

Rafael Macario - Get To You

tom:

Bm
Every day I was just out of place
Was out of my mind

G D
Then you came up and saw right through me
You made it feel right

G D
It's 2 am and, and I gotta find you
I still see your face when you ain't here and I'm not around you

G D
And I know you're gone but, I could find a boat, run
I can be your best, love

A
Let me know, you could be my one too

[Pré-Refrão]

G D Bm
I'll drive on the road of love to fight
I'm on a ride to get back to you
The stars with nowhere to go tonight
Say where you are and I'll get to you

[Refrão]

G D Bm A
And I'll get to you
G D Bm A
And I'll get to you now

G D Bm A
Just think of what we could be doing now
(And I'll get to you now)

G D Bm A
Tell me you want me, you'll be mine tonight
(And I'll get to you now)

G D Bm A
Now and then I just can't keep the pace
It's hard to get by
All I need is just you close to me
The ocean in your eyes

G D
And now that I met you, I just really want you
And I'm not afraid to scream it out, I'm just crazy bout you
Cuz you light my world up

D
And you make me feel numb

Bm
Wanna be by your side

A
Say the word, you could be all mine too

[Pré-Refrão]
