

Raffaella - NASA's Fake

tom:

Bm

[Primeira Parte]

I just found out that my chiropractor thinks NASA's fake
 Itâs a fact I couldn't take
 Now my back's about to break
 Swear my drug dealerâs died
 And I haven't smoked in over a day
 I really shouldn't have to wait
 Why's he always fuckin' late?

[Pré-Refrão]

I bought a coffee but my name's spelt wrong
 I'm sick of listening to my favourite song
 I'm losing followers and gaining weight
 How much can I take?

[Refrão]

I've got so many problems
 I can't solve, I can't stop 'em
 So I'm gonna go, gonna drop 'em
 Off at home with my mama
 Jesus Christ, gimme a break
 Is there a pill I can take?
 I've got so many problems
 I can't solve, I can't stop 'em
 So I'm gonna go

[Segunda Parte]

I'm feeling cross 'cause my therapist just said that I've changed
 Like the bitch can see my brain
 We both know she's getting paid
 And I pray to God that my best friend will stop sharing her pain
 Look, we've all got problems, babe
 Sorry but you're being vain

I just got my hair blow-dried today
