

# Raiz Do Sana - Estrela Alpha

Tom: F

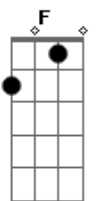

O luar que acende a serra  
 Mexe o fogo da paixão  
 E faz a menina da terra  
 Se soltar que nem um balão  
 O clarão da lua nela  
 Revela pra mim a visão  
 Que a vida fica mais bela  
 Com ela no coração  
 Na madrugada criança  
 No forró do Sana quero bem te ter  
 Com a sapatilha vermelha

Feliz e faceira quero bem te ver  
 A con te cer  
 Sua luz no céu do salão  
 Vejo você, a estrela alpha  
 Rainha da minha constelação  
 Seu fogo de amor me acata  
 Me enlaça na dança ao redor da fogueira  
 Catucando a sensualidade  
 Agente avança até a cachoeira  
 E o a ma nhe cer  
 Testemunha da nossa paixão  
 Faz de você a estrela alpha  
 Rainha da minha constelação
