                                                                    but you do it

You've got to pick up the pieces c'mon, sort your trash
                                                                       Bonzo goes to bitburg then goes out for a cup of tea
As I watched it on TV somehow it really bothered me
You better pull yourself back together maybe you've got too
                                                                       Drank in all the bars in town for an extended foreign
                                                                    policy
Better call, call the law when you gonna turn yourself in?
                                                                       Pick up the pieces
You're a politician don't become one of Hitler's children
                                                                    No no-no-no, my brain is hanging upside down
                                                                    No no-no-no, I need something to slow me down
   Bonzo goes to bitburg then goes out for a cup of tea
As I watched it on TV somehow it really bothered me
                                                                    No no-no-no, my brain is hanging upside down
   Drank in all the bars in town for an extended foreign
                                                                    No no-no-no, and I need something to slow me down
                                                                        A G ] 4X -- How Yea!

No no-no-no, my brain is hanging upside down
                                                                    It's when someone tries to hide behind politics
No no-no-no, I need something to slow me down
No no-no-no, my brain is hanging upside down
                                                                    I wish that time could go by fast
No no-no-no, and I need something to slow me down
                                                                    Somehow they manage to make it last
Shouldn't wish you happiness, wish her the very best
                                                                    No no-no-no, my brain is hanging upside down
Fifty thousand dollar dress shaking hands with your highness
                                                                    No no-no-no, I need something to slow me down
                                                                    No no-no-no, my brain is hanging upside down
                                                                    No no-no-no, and I need something to slow me down
