

Ramones - Palisades Park

Tom: **G**

G E

G

Last night I took a walk in the dark

E

To a place called Palisades Park

C

To have some fun, to see what I could see, that's where the girls are

D

I took a ride on the shoopty shoop

The girl I sat with almost, almost puked

And when it stopped, she was holding hands with me

C

My arms were flying up, like a rocket ship

E

Down, like a roller coaster

C

Fast, like a loopy loop

D

Then around, like a merry-go-round

We even at a hot dog stand

Slam danced to a rockin' band

And when she winked, I gave that girl a hug, in the tunnel of love

C

You'll never know how good it just can feel

E

'Til it stops at the top of the ferris wheel

C

D

I fell in love, down at Palisades Park

[**G E**] x2

[**C D F#\G**]

Last night I took a walk in the dark...

I took a ride on the shoopty shoop...

My arms were flying up, like a rocket ship...

We even at a hot dog stand...

You'll never know how good it just can feel...
