

Ramones - Somebody Put Something In My Drink

Tom: A

[A F G E] x2

Another night out on the street

Stopping for my usual seat

Oh, bartender, please

Dacqari tonic's my favorite drink
I don't like anything colored pink
That just stinks...it's not for me

It feels like somebody put something somebody put something
in my drink

Somebody put something somebody put something

Blurred vision and dirty thoughts
Feel out of place, very distraught
Feel something coming on

Kick the jukebox, slam the floor
Drink, drink, drink, drink some more
I can't think Hey! What's in this drink?

It feels like somebody put something somebody put something

in my drink

in my drink

in my drink

In my drink
In my drink
In my drink

In my drink
[A F G]

So you think it's funny a college prank
Goin' insane for something to drink
Feel a little dry

Oh, I couldn't care what you think of me
Cause somebody put something in my drink
I can't think Hey! Give me a drink

It feels like somebody put something somebody put something
in my drink

Somebody put something somebody put something

in my drink
