

Raphael Nercessian - Head On The Clouds

Tom: F

Intro: G C G C

I put my head on the clouds
While I wrote the song

My mind is night
I can't tell my soul

So many words

I wanna say but I can't
Find a way

Until now I don't know

How you feel in your heart

And the doubt in my love drives me crazy

I looked for you

And feel the love in the air

Sweet moments that I will never forget

You are my dream, my sky

You are my love, don't leave me, baby

?Cause if you open your heart

You'll see how much I will love you, baby

I put my head on the clouds

Just to seek the love and we found

I put my life in it, can't you see?

That you are coming back, back to me

I still think about you

And the time we spent together at dawn
Hoping it's forever

All the joys we had in summertime

Are way hard for me to deny

Until now I don't know

How you feel in your heart

And the doubt in my love drives me crazy

I looked for you

And feel the love in the air

Sweet moments that I will never forget

You are my dream, my sky

You are my love, don't leave me, baby

?Cause if you open your heart

You'll see how much I will love you, baby

I put my head on the clouds

Just to seek the love and we found

I put my life in it, can't you see?

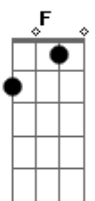

That you are coming back, back to me

And tonight is the night
