

Rascal Flatts - My Wish

```
Yeah, this, is my wish.
Intro: (A E )
I hope that days come easy and moments pass slow,
                                                                   I hope you never look back, but ya never forget,
And each road leads you where you want to go,
                                                                   All the ones who love you, in the place you left,
                                                                   I hope you always forgive, and you never regret,
And if you're faced with a choice, and you have to choose,
I hope you choose the one that means the most to you.
                                                                   And you help somebody every chance you get,
And if one door opens to another door closed,
                                                                   Oh, you find God's grace, in every mistake,
I hope you keep on walkin' till you find the window,
                                                                   And you always give more then you take.
If it's cold outside,
                                                                   Oh More then anything, and more then anything,
