

Raul Seixas - How Could I Know (love Was To Go)

Tom: G

Intro: G D C G D

It brings me sadness just remembering getting home
 From a tiring day of work, she would hold me very tight
 And kiss me tenderly
 We sat while, and she'd tell me all the news:
 How she took the kids to school and she found them at the zoo
 Throwing peanuts to the bears...

Oh, this remembrance keeps reflecting on my mind
 When the days ran calm and fine, and I had her by my side,
 Swearing love eternally

But, hey! How could I know
 Love was to go after all this time?
 Hey! How could I see
 She would leave me after all this time?

Little by little our sky was getting darker,

Our dreams were running farther, our smiles becoming harder,
 in the distance of us two
 Our loving glances very rarely they were meeting,
 We were always, always fleeing from a love we felt was ending,
 still we never said a word

But, hey! How could I know
 Love was to go after all this time?
 Hey! How could I see
 She would leave me after all this time?

Then one fine morning with a torn and aching heart
 We decided we should part, for it was late to restart
 A love that never was...

I still can picture: you were standing at the railing,
 Saw your taxi that was waiting, Held a tear when you were waving

your very last goodbye
 The kids were with me as your taxi drove away,
 I had nothing more to say, So I put them all to sleep...
