

Raul Seixas - How Could I Know

Tom: G

(intro) G D C G D

Reformulation, rearrange the
game you're in

Let us start from the begin

With confidence you'll win
That's the reason you
were born

'Cause Jesus Christ, man, won't
be coming

Back no more

He set up his proper laws

And you know well that he did
just what

He should have done

As I was growing and my hair was
getting longer

I was feeling so much stronger

I could carry my guitar, and I knew

That I could sing!!

But hey, how could I know?

The wind would blow with the rain

Hey, how could I see

What would they make

out of me?

When I was little, used to dream I

was a king

Now they taught me how to sing

Think I've got most everything

I could ever ask for

You've got your pencil, your guitar,

Your amplifier

Searching for the lousy liars

You will set this world on fire

Like Nero did to Rome!! Yeah!

But hey, how could I know

My eyes could see in the dark?

Hey, don't press on me

I'm not to blame can't you see?

It's been so long now

Since the latest "red" has gone

Who knows you'll be the next

To go down in history...

Acordes
