

Real Estate - Primitive

Tom: E

And all I know is it'd be easy to leave

Do this walk down on the D string before that main riff:

When the night is young in the land I'm from, the seasons ghost away

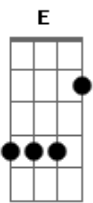

And that's basically it!

The stars at night obscured by light, can still lead me through this

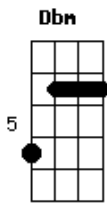

And in my mind I can't see the street
Where you and I will live
You still can't see the stars at night
But we're not primitive

Don't know where I want to be but I'm glad that you're with me
Oh but I'm glad that you're with me
And all I know is it'd be easy to leave
