Riff de guitarra (se repete duas vezes):

Base: **Cm Gm**

Chorus 2x  
No time for the wicked  
If your in my line ima  
Go around the side and still bring it  
Sky is the limit  
Out of my way  
You can't get me down

There's nothing like a clear piece of mind  
To overcome the hardships in life  
To sort out the wrong from the right  
Someone's in line  
But they can't get me down

I got my own self by my side  
And mentally we've got to be free  
I see the wickedness coming full speed  
But I hold together like the?

I'm tryna do something outta nothing  
Your tryna hold me back and that's fine  
Nothing you say or do is worth my time  
Good day to you I respectfully decline

And now I'm coming stronger than ever  
You say I'm a fool  
I say whatever  
I'm in it for good vibes together  
And the loves lasts forever

Chorus 2x  
No time for the wicked  
If your in my line ima  
Go around the side and still bring it  
Sky is the limit

Out of my way  
You can't get me down

Riff de guitarra (se repete mais duas vezes):

And now its been 7 years running  
Backyards and front yards and at the 8, 7  
Summit the scene with the banging at senate  
And son, didn't really work hard to get it

Dream on they say dream on your weak  
But my hands so high cause in my mind I've achieved  
Not we set the pace for a dream and 6500 all've been living  
hind me
