

# Red Hot Chili Peppers - Feasting On The Flowers

Tom: E

Intro:

Verse:

**Dbm**  
I was walking through the streets  
**B** **A**  
I could not hear my best friend call  
**Dbm**  
He was feeling incomplete  
**B** **A**  
about to take his final fall  
**Dbm**  
Last thing I remember there were  
**B** **A**  
tears of blood and just not mine  
**Dbm**  
Any other day and I would  
N.C.  
save you from this cold decline

Chorus:

**E**  
Everything they said about everything  
**D**  
Was a coming undone it's a life supreme  
**Gbm** **Dbm**  
I do and I don't, well I do and I don't, Oh yeah

**E**  
Feasting on the flowers so fast and young  
**D**  
It's a light so bright that I bite my tongue  
**Gbm** **Ab7**  
I do and I don't, well I do and I don't, Oh yeah

Intro: Riff:

Verse:

We were moving in the world, expanding your realities  
A force of nature on the verge, commanding abnormalities  
Last thing I remember there was ringing in my selfish ears  
Twenty-Six a number much too small for someone's golden years

Chorus:

**E**  
Everything they said about everything  
**D**  
Was a coming undone it's a life supreme  
**Gbm** **Dbm**  
I do and I don't, well I do and I don't, Oh yeah

**E**  
Feasting on the flowers so fast and young  
**D**  
It's a light so bright that I bite my tongue  
**Gbm** **Ab7**  
I do and I don't, well I do and I don't, Oh yeah

Solo:

**Dbm**  
You get a little bit more this time when  
**Ab7**  
You give a little bit for your brother's kind  
**Gbm** **E**  
Like she always said, "Oh, Don't look back, just look ahead"

**Dbm**  
You sign a little bit stronger when you  
**Ab7**  
Remember the song of your old best friend  
**Gbm** **E**  
Like she always said, "Oh, Don't look back, just look ahead"
