

# Red Hot Chili Peppers - Magpies On Fire

Tom: F  
Intro: G G7 Gm7 A F Fm Bbm

F C Dm  
Magpies on fire  
F C Dm  
Making love like little  
F C  
Worms out on the porch can  
Dm  
Leave the medicine  
Bb  
Oh well I'm game  
Bbm  
For anything at all  
F C  
Scarecrows a liar  
  
Spends the year alone  
  
No one checked it out  
  
To see if it was real  
  
Sold you the moon  
  
And now it's time to fall  
  
All in all it's like the  
  
Bird who's trapped alone inside the cage  
  
Love  
  
What more do you want?  
  
How much more can you take?  
  
I love my mistakes  
  
I've been here before  
  
All in all it's just  
A call of something wise beyond your room

There's a changing of a major chord  
Your minor threat will do love  
My gun misfired  
Shot myself instead I guess  
I always knew I'd be the one to lose  
Last scream don't slane  
Time to make a move  
What more do you want?  
How much more can you take?  
I love my mistakes  
I've been here before  
All in all it's like the  
Bird who's trapped alone inside the cage  
Love  
A bird who's going to live at half your age girl  
A bird who's never really here to say  
What more do you want?  
How much more can you take?  
I love my mistakes  
I've been here before  
Least of all she's like  
A bird who's now been  
Freed from someone's cage  
  
( Am Dm G C )
