

Red Hot Chili Peppers - Magpies On Fire

Tom: F
Intro: G G7 Gm A F Fm Bbm

F C Dm
Magpies on fire
F C Dm
Making love like little
F C
Worms out on the porch can
Dm
Leave the medicine
Bb
Oh well I'm game
Bbm
For anything at all
F C
Scarecrows a liar

Spends the year alone

No one checked it out

To see if it was real

Sold you the moon

And now it's time to fall

All in all it's like the

Bird who's trapped alone inside the cage

Love

What more do you want?

How much more can you take?

I love my mistakes

I've been here before

All in all it's just
A call of something wise beyond your room

There's a changing of a major chord
Your minor threat will do love
My gun misfired
Shot myself instead I guess
I always knew I'd be the one to lose
Last scream don't slane
Time to make a move
What more do you want?
How much more can you take?
I love my mistakes
I've been here before
All in all it's like the
Bird who's trapped alone inside the cage
Love
A bird who's going to live at half your age girl
A bird who's never really here to say
What more do you want?
How much more can you take?
I love my mistakes
I've been here before
Least of all she's like
A bird who's now been
Freed from someone's cage
