

# Red Velvet - Psycho (English Ver.)

tom:

Ooh  
 Oh yeah (umm)  
 Ya, psycho

Who the hell you think you are?  
 Comin' in to break my heart  
 Make it like an operation

But I ain't one of your patients  
 Tired of this waitin' and I don't play that game

I can't get you off my brain  
 So I'm poppin' pills for the pain  
 And as soon as I go wake up  
 You're caught up in your haze  
 And I can't get out of my bed

Tears are almost gone  
 But the symptoms in my heart  
 So tell me what's the cure for you (tell me now)  
 'Cause boy you make me so confused (boy you make me so confused)

You got me feeling like a psycho, psycho  
 Got me chasin' shots of nyquil, nyquil  
 Without you got me dizzy and upset  
 Got me so obsessed with you  
 Look what you started  
 I'm psycho you're heartless

Like a psycho (psycho), psycho (psycho)  
 Got me chasin' shots of nyquil (nyquil), nyquil (nyquil)  
 Without you got me dizzy and upset  
 Got me so obsessed with you  
 Look what you started  
 Hey now I'll be okay

Hey boy I don't see why you can't be with me  
 I'm original visual  
 They ain't got nothing on me, yeah  
 I'm about to blow your spot  
 Boy you 'bout make me hot  
 Lemme just stop

How should I get rid of you

I can never pull off something I can't be  
 I can never be enough for you to fill your needs  
 But I can't leave  
 And take my love from you, you

Tears are almost gone  
 But the symptoms in my heart  
 So tell me what's the cure for you (tell me now)  
 'Cause boy you make me so confused  
 Boy you make me so confused
