

# Reina Del Cid - Cassiopeia

tom:  
Capostrate na 5ª casa

[Primeira Parte]

It's a pretty good view on the moon tonight  
As the sun's going down on the satellite  
And the earth hangs around  
My old friend in the sky  
'Cause she knows I'm an poor castaway

[Segunda Parte]

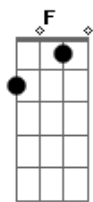

I weep to think what I've become  
Since I crashed landed down in the calcium  
I had reached for the stars  
But I couldn't choose one  
So it's here I am bound to remain

[Refrão]

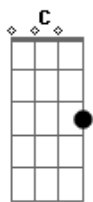

I was looking for Cassiopeia  
I was searching for gold in the sky  
Through my telescope I hope to see her  
If only to wish her goodnight

[Terceira Parte]

But the candles won't light without oxygen  
So I eat by the glow of the world that I left  
And wonder it's still the same

[Quarta Parte]

Now that's not to say I'm alone out here  
There are hunters and archers and charioteers  
They're flung through the night  
Like I'm flung through the years  
I hear them all calling my name

[Pré-Refrão]

I'm still looking for old Ursa Minor  
I've been tracking her prints in the sky  
Through my telescope I hope find her  
If only to wish her goodnight

[Refrão]

Yes and where'd you go, Cassiopeia?  
All I found were your tears in the sky  
In my dreams I know I'm gonna meet ya  
If only to tell you I tried
