                                                           Get up and walk right out this tomb
                          tom:
              G
                                                                  Α

                                                           [Refrão]
I don't feel safe in this bed
                       Dbm
                                                            Α

                                                           Over and over we go
There are voices in my head
                        Dbm
       Α
I've been talking to?the?dead
                                                           (Over and over we go)

                                                           Over the hills and the valleys below
And the fear?baptised me
    Α
                  Dbm
My kingdom turned to dust
                                                           (Over the hills and the valleys below)

                                                                                           Dbm
       Α
And?I watched all my riches rust
                                                           Oh, and it follows me, follows me home
A Dbm
Have I lost the Midas' touch?
                                                           (Follows me, follows me)

Or do sad eyes blind me?
                                                           And it suffocates me, hmmm

All I know is I forgot how to be me
                                                           When I don't know how to be
[Verso 2]

            Α
I don't feel safe in the halls
                                                           I forgot how to be me
         Α
                         Dbm
There are bruises on the walls
                                                                    Α

                                                           A quick decision late in the night
     Gbm
And they breathe so loudly
                                                                         Α
                                                           That stayed with me for all of my life
 Α
         Dbm
I wish I could move
                                                                 Gbm
