

Rex Orange County - Edition

Tom: Gb
Intro: F A7 Dm7 C

Baby you braved it
I understand you had a bad day and shit
So I say something dumb as fuck
And luckily it gives you a facelift
But really I couldn't take it
Especially when the volume is raising
She came in the room
Chicane in the road
Now my mind is racing
You care too
Where to?
Three days in a row my plans fell through
Crying in a hotel room

You listen
If I could I'd be staying at the edition
(For real?)
For real
I would meet you at a certain time
And take my time and make my decision
For real
I'm only ever trying to help you
It's only ever love (in a hotel room)
It's only ever love, baby
I'm only ever trying to help you
It's only ever love, baby (in a hotel room)
It's only ever love
It's only ever trying to be loved in a hotel room
